Profile

Dedicated and results-driven Senior Frontend Web Developer with over 10 years of experience in designing, developing, and maintaining user-friendly and visually appealing web applications. Proficient in modern frontend technologies such as HTML5, CSS3, JavaScript (ES6+), and various frontend frameworks/libraries including React.js and Next.js. Adept at translating design mockups and wireframes into efficient, responsive, and cross-browser compatible code. Skilled in optimizing website performance and ensuring adherence to best practices and industry standards. Proven ability to lead teams, mentor junior developers, and collaborate effectively with cross-functional teams to deliver high-quality solutions on time and within budget. Passionate about staying updated with the latest trends and advancements in frontend development to continuously improve skills and deliver innovative solutions.

Experience

Fiserv/Clover POS

Senior Software Engineer, 2021-2024

This was a fast-paced development position focused on front-end web SaaS POS APP. My position was to collaborate, thrive when challenged, is an ultimately team player, and is dedicated to staying at the forefront of emerging technologies. We prefer out-of-the-box, innovative developers.

Requirements: Extensive knowledge of HTML, CSS, Javascript (React using Typescript, SCSS, Storybook and Unit Testing), Strong working knowledge of GIT, Unit Testing and JavaScript.

COMCAST/NBCUniversal

ERG Project Manager for News Diversity, Equity & Inclusion with a focus on Veterans Programs — 2018-2021

This position requires an experienced Diversity, Equity and Inclusion Professional. Skilled in Strategic Inclusion and Diversity, D & I Management, Strategic Outreach, Training Delivery, Management, Corporate Training Strategies, and Organizational Development. Champion for organizational cultural change in news. As part of this role I was also to be a project manager for WWE/NBC Summer Slam Jobs fair

required me to develop, coordinate and manage a 3 day event/workshop for 4 years with nearly 60 other business partners and over 400 veterans attending.

Senior Software Engineer, MSNBC | NBC News | Today Show — 2014- 2021

This is a fast-paced, high-profile development position focused on front-end web applications. As a self-motivated person, I thrive when challenged. I am an ultimately team player, and am dedicated to staying at the forefront of emerging technologies. We prefer out-of-the-box, innovative developers. Requirements: Extensive knowledge of HTML, CSS, Javascript (React, NodeJS, and GraphQL), Strong working knowledge Linux administration and programming via command line.
